

Robert Siński

Creating impactful digital experiences and scalable solutions.

Relevant experience

Part-Time Full-Stack Engineer • Gravity Rifters • Nov 2024 - Present

- Building the backend and frontend for Cosmiers, a sci-fi game.
- Designing features to enhance multiplayer and website functionality.

Full-Stack Engineer • Enchained Games • Feb 2024 - Nov 2024

- Developed Firebase cloud functions to enhance backend scalability and performance.
- Integrated new features into the frontend, improving user experience.
- Implemented smart contracts on blockchain platforms to secure in-game transactions.

Full-Stack Engineer • Foundation "Polskie Maki" • Oct 2023 - March 2024

- Designed & developed a responsive website for two online games
- Multiplayer sessions without user logins, like Kahoot.
- Created leaderboards, virtual card collections, and game summaries.

Junior Full-Stack Engineer • Anfata Games • Sep 2022 - Aug 2023

- Crafting serverless functions utilizing Firestore and Parse cloud functions.
- Implementing smart contracts within the frontend architecture.
- Conducting thorough testing and debugging to ensure optimal performance and functionality.
- Collaborating with cross-functional teams to gather requirements and deliver seamless user experiences.

Featured Projects

SkillBridge (In Development)

A platform that connects developers and designers for collaboration on side projects.

- Key Features: Seamless matching, dynamic search, featured projects, and built-in communication.
- Mission: To foster collaboration, innovation, and professional growth in the tech community.

BoardFlow - Collaboration whiteboard • [Github](#) | [Website](#)

- BoardFlow is a cutting-edge whiteboard app. Users can customize boards with various elements and manipulate objects with ease - resize, delete, and layer for a dynamic and intuitive experience.
- Integrated authentication (Clerk) ensures security, while Liveblocks powers real-time updates for seamless, interactive collaboration.
